General Comments	
------------------	--

Checked storage areas exterior and interior no activity found

Inspection (This report is not intended for a property transaction)

Performed on Date: 11/08/2017 Activity Found: No

Conditions Conducive

It is important for you to know that certain conditions in and around your home can contribute to Wood Infesting Organisms, and can therefore compromise the effectiveness of Orkin's treatment. It is very important that you remedy the Conditions Conducive noted below. If you fail to do so, it may, in some cases, jeopardize your agreement; moreover, it is probable that your home will experience future termite activity and damage, and treatment by Orkin may not solve the termite problem. This report DOES NOT INCLUDE MOLD or any mold-like conditions. Mold is generally not a wood destroying organism and is outside the scope of this report. If you wish your property to be inspected for mold or mold-like conditions, please contact the appropriate mold professional. Please notify us in writing when you have corrected the Conditions Conducive.

We identified the following Condition(s) Conducive: None Entered

Acknowledgement

- * I understand that additions, or modifications to or around the structure can disturb the termiticide treatment, and may require additional inspection and treatment. The Locations of these area(s) are: None selected
- * This work has been performed to my satisfaction.

CONSUMER NOTIFICATION(S) / POST APPLICATION STATEMENTS

Treated Area(s) - Do not allow unprotected person(s), children, or pets to touch, enter or replace items or bedding, to contact or enter treated area(s) until dry.

Ventilation/Reoccupying – Vacate and keep area(s) closed up to 30 minutes after treatment, then ventilate area(s) well for up to 2 hours before reoccupying.

Equipment/Processing/Food – Thoroughly wash dishes, utensils, food preparation/processing equipment and surfaces with an effective cleaning compound and rinse with clean water if not removed or covered during treatment. This area should be odor free before food products are placed in the area.

Exterior Applications (baits) - Do not allow grazing of feed, lawn or sod clippings to livestock after bait applications.

Granular Application(s) – Do not water to the point of run off.

Do not burn treated fire wood for one month after treatment.
