

531 N. 44th St., Louisville, KY 40212

Square footage calculation:

$$A = 14' \times 24' = 336$$

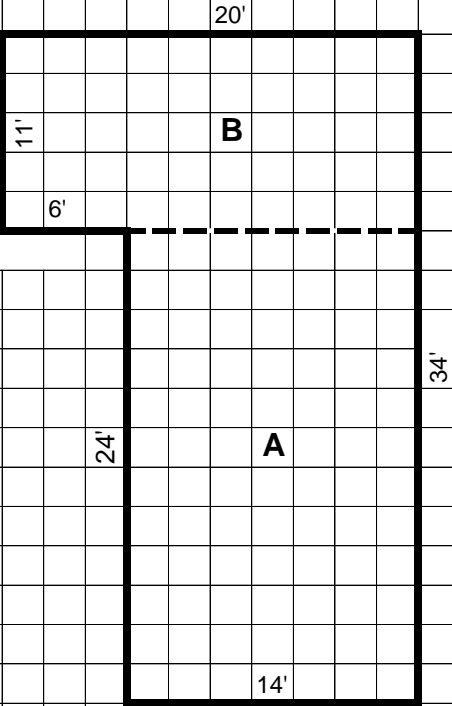

$$B = 11' \times 20' = 220$$

$$\text{Total square footage} = 556 \text{ sq. ft.}$$

Notes:

The square footage numbers constitute an approximation due to occasional rounding. Thus they are not guaranteed to be 100% accurate. Bidders are welcome to conduct their own measurements if the wish.
